care full of tenderness

bobini[®] baby

HYPOALLERGENIC

100%
Love

Every baby needs love and trust from the very beginning of their life. The closeness of Mom and Dad and their tenderness make them feel safe and enable their proper development. Having that in mind we created the lipid series **bobini baby**. We selected only the best ingredients of natural origin, similar to those already existing in human skin. Thanks to that, cosmetics care for the skin and protect the protective skin layer which is particularly thin and delicate when it comes to babies. Hypoallergenic formula gently wash and moisturize the skin and they may be used from the 1st day of life.

To provide your baby with complex skin care and protection we added, to our offer of wet wipes and cosmetics, a line of gentle, hypoallergenic laundry products. All recipes are hypoallergenic and based on extremely mild ingredients, which do not irritate delicate skin.

Lipids are one of the components of human skin. They seal in the skin and help it maintain the right level of moisture. Their deficiency results in dryness and susceptibility to irritations. That is why we enriched our recipes with natural lipids.

They may be found as:

- ♥ Sweet almond oil
- ♥ Sunflower seed oil
- ♥ Shea butter
- ♥ Soybean oil
- ♥ Natural oat extract
- ♥ Lecithin

bobini® kids

Healthy teeth – healthy kids

Dental hygiene is a very important element of childcare. To care for your child's healthy teeth, the bobini brand in its wide portfolio has also toothpastes. Carefully composed, sugar-free recipe with fluoride content adjusted to the child's age ensures proper and effective care of baby teeth, permanent teeth and gums. The taste of **strawberry ice cream** or **mint bubble gum** is extra fun during everyday teeth cleaning.

The portfolio is also complemented with toothbrushes. Their soft bristles will ensure thorough tooth brushing and gentleness for the gums.
