bobini[®]

Feel the loving care

Bobini is synonymous of tenderness and security that every parent wants to provide to their children. It is a unique brand that has been creating products for babies and children's care for years. High-quality recipes are created with the utmost care, with the highest possible content of ingredients of natural origin. All products are dermatologically tested and a great part of the portfolio is hypoallergenic and suitable for vegans.

bobini[®] baby

Gentle care for sensitive baby skin

All Bobini Baby hypoallergenic products are perfectly tailored to the **delicate** and **sensitive** skin of babies. The **natural ingredients** help to **soothe irritations** and **moisturize** the skin. Thus, they can be used daily without any problems. The care products have a particularly **mild formula, pH neutral for children's skin**, therefore the protective barrier is not violated.

The recipes have been enriched with precious ingredients known for their unique properties:

Prebiotics that protect the natural protective barrier of the skin.

Emollients moisturize and reduce loss of water through the skin.

Natural lipids strengthen the protective layer of the skin.

Aloe Vera soothes skin irritations while protecting it from water loss.

Vitamin E improves hydration and makes the skin soft and smooth.

Almond oil moisturizes and smoothes the skin.

Oat extract known for its soothing and moisturizing properties cares for sensitive skin.

Sunflower oil source of lipids, strengthens the lipid barrier of skin, softens and smooths.

Shea butter moisturizes the skin, it supports regeneration of irritated epidermis.

Gentle daily care & protection

Since the very beginning the brand Bobini had one prevailing idea: manufacture products of the **highest quality** which would not only meet the requirements of caring and demanding parents, but also provide the skin of the little ones with everything it needs. That is why for our products we have chosen the best ingredients of the nature, close to the ones which exist in our skin to provide it with natural care. Our products are **gentle** which has been **confirmed by tests** in external, independent laboratories. Our Bobini Kids childcare line have been developed specially for children over one year of age. It provides not only everyday care but also **protection**.

Our unique formulas contain:

Prebiotics that protect the natural protective barrier of the skin.

Natural lipids strengthen the protective layer of the skin.

Oat extract known for its soothing and moisturizing properties cares for sensitive skin.

origin

Natural care for babies & children

Bobini Natural Care is dedicated to parents of babies for whom it is very important what cosmetics they use to care for their children's skin. People who consciously choose products are interested in what the product contains „inside” and choose the ones **based on plant ingredients**. They do not agree to use skincare products which contain ingredients of animal origin. It is important for them that **no living beings** are affected by the production of the cosmetic and that the product is **not tested on animals**. They know that they are part of our ecosystem and feel responsible for it. Bobini Natural Care is a care based on, among others **natural plant ingredients: aloe vera water and olive leaf extract**.

Our unique, green ingredients:

Aloe vera water known for its smoothing properties.

Olive leaf extract which moisturizes the skin as well as protects it from drying out.

Our packaging are manufactured based on the concept of „lightweighting” - which assumes **less raw material consumption**, thus supporting the idea of a **sustainable future**.

BIOPH-N

The true value lies in nature

A breath of fresh sea breeze that soothes the mind with its scent and restores internal balance, putting us in a state of deep relaxation. Mineral fragrance notes invite us to carefree laziness on the beach. The mineral line is inspired by the natural wealth of the seas and oceans. This is where we find precious minerals that we used in our recipes. Our sophisticated, effective and technologically refined products are free from synthetic fragrances, dyes and petrochemicals. On the other hand, the ingredients **are enriched with salts containing Mg, Ca and K**, which have the desired cosmetic properties.

MAGNESIUM

- has a toning, regenerating effect

POTASSIUM

- restores the skin's proper level of hydration

CALCIUM

- soothes, stimulates skin regeneration
